SYSTEM PROGRAMMING LAB

Time Allotted: 2 Hours

Full Marks: 20

*The questions are of equal value.
The figures in the margin indicate full marks.
All symbols are of usual significance.*

Lab:	15
Viva:	5
Total	20

Answer any one question of the following

15×1 = 15

1. Write a program that reads text from a file and prints on the terminal each input line preceded by the line number. 15
2. Write a program that takes from the user the name of a file and a “field-number”, and then reads that file and for each line in that file prints on the terminal word at position “field-number”. 15
3. Write a C program that works like the strings program of LINUX. 15
