

Workshop on Photography and Digital Imaging

20th May 2022

Organised by Alumni Association, Prasannadeb Women's College

Prasannadeb Women's College Alumni Association organised a workshop on Photography and Digital Imaging on 20th May 2022 within the college premises. Renowned photographer of Jalpaiguri, Smt. Sayani Chanda, gave her valuable time and idea to encourage the present students. Smt. Sriparna Sarkar, Teacher-in-Charge, all teaching and non-teaching staffs, and present students have attended this workshop.

For someone with a creative and meticulous nature, photography is a fantastic career choice. It is a constantly changing field that calls for the appropriate abilities and commitment. Understanding the technical issues is just as important as having artistic insights. It's also critical to keep abreast of and adopt the most recent photographic trends. A photographer can pursue careers in a variety of industries, including product, fashion, sports, and wildlife photography. Additionally, they might focus on documentary, portrait, or wedding photography. On the other hand, some photographers specialize in one kind of photography and promote their knowledge in that area. The main goals of a photographer should be to record captivating events, narrate tales in imaginative ways. It is also important to have proper

knowledge about the tools and accessories used in photography and to use them effectively at proper place.

Smt. Sayani Chanda encourages the students to take photography as a career option. From freelance to reporting, if a student wants to build a career in photography, there are diverse options nationally which can assist the candidate to learn, grow, develop to understand the ethics of working with the camera. After completion of the bachelor's degree, a student wishes to enter the field of **photography** can pursue a career behind the lens of a camera.
